New Technology for ©2013 **NEW!**

Online Editions include interactive, scoreable activities for every single textbook activity, downloadable audio and video, all Teacher Resources (viewable only to the teacher), plus:

News and Networking give students access to high-interest articles and video with updates throughout the school year. Activities to support the articles and video are included. Students also have the ability to share their comments about the articles and video via a monitored blog.

Performance Space allows students to submit oral and written responses. All submitted student work can be viewed by the teacher and the student in their Performance Space dashboards. Teachers may respond with audio or text comments to the student, and keep track of individual and class performance in the dashboard.

Interactive Whiteboard Lessons support vocabulary and grammar instruction with a variety of activities to get students moving. Interactive whiteboard lessons include audio and lively visuals and are compatible with any interactive whiteboard. (Available online through Teacher Resources.)

***iAvancemos!* Online Premium Add-On Package includes:**

Online Workbooks provide opportunities for skill-building practice with grammar, vocabulary, and reading activities.

Read for Real! Interactive Reader includes a variety of readings at various levels of difficulty. To support the Common Core, the emphasis is on authentic and informational reading. Prompts and questions encourage students to dive into the text for information and responses. The online tools allow students to mark the text, respond to questions, search a glossary, and access definitions to key words.

***Bien dit!* and *Discovering French Today!* Online Premium Add-On Packages include:**

Online Workbooks provide opportunities for skill-building practice with grammar, vocabulary, and reading activities.

Read for Real! Interactive Reader includes a variety of readings at various levels of difficulty. To support the Common Core, the emphasis is on authentic and informational reading. Prompts and questions encourage students to dive into the text for information and responses. The online tools allow students to mark the text, respond to questions, search a glossary, and access definitions to key words.

@HomeTutor provides students additional practice opportunities at a self-determined level of difficulty. This online tool includes presentation of material, practice at three levels of difficulty, self-scoring, and animations.
